BULLETIN: 15-0004 New Globe Valve Retrofit Q5024 Linkage

Introducing New Globe Valve Q5020 Retrofit Linkage

We are pleased to introduce our new globe valve Q5024 retrofit linkage. Now, you can use Honeywell Direct Coupled Actuators (DCAs) to retrofit most manufacturers' globe valves with our new linkage offering. This linkage is easy to install and collar combinations fit most of your globe valve retrofit jobs. Save money and time by replacing old electrical or pneumatic actuators with reliable Honeywell DCAs

Features

Single or dual actuator linkage options with a torque range of 44 to 600 lb-in and wide close-off capabilities enable you to retrofit most manufacturers' globe valves.

- Use Honeywell actuators to upgrade most ½"- 6" globe valve installations in the field
- Pull existing globe valves into your Building Management system by using Honeywell actuators
- Quick and simple installation - no valve disassembly required
- Replaces Q5022 previously used with 4" - 6" VGF valves
- Quick and easy selection using the Fast Track tool.
- Variety of bonnet adapters and kits to fit most manufacturer's globe valves

Easy to order

Honeywell's easy-to-use Fast Track program assists with selecting and configuring your entire valve and actuator project. You can also use the Honeywell Fast Track Tool to select the correct linkage and bonnet adapters for your valve retrofits. Or, use the selection table from product data sheet [32-00020](#) (Table 3). If you do not have the exact part number or valve size, order globe valve kits (listed in Table 5 of product data sheet [32-00020](#)) that include a variety of bonnet adapters for linkage with ½" to 6" globe valves made by most manufacturers.

More Fast Track™ Improvements

Retrofit Linkage addition

- Search by Honeywell or competitor valve
- Select applicable retrofit linkage and bonnet adapter
- Old Project – New Pricing
- Fast Track will recognize if previously generated valve schedule contains current year's pricing and allow the user to update pricing if desired.

Product Availability and Pricing Information

Linkage	Actuator Qty*	Valve Stroke	Availability
Q5024A1116	1	0.63" / 16mm	Available now
Q5024A1123	1	0.91" / 23mm	Available now
Q5024A1130	1	1.18" / 30mm	Available now
Q5024B2230	2	1.18" / 30mm	Available now
Q5024B2240	2	1.57" / 40mm	Available now

Note: All of the bonnet adapters and kits are available now
